Soft Skills	Problem Solving,Innovative,Analytical Thinking,Collaboration, Adaptability, Communication,Public Relation.

EXPERIENCE

Web Development Intern　　　Jun 2023 - Jul 2023
CodeClause　　　*India*

- Learned Front End Development and Back End Development which led to improvement in making web pages.
- Developed a personal portfolio website and a Unit Converter Tool.

Artificial Intelligence Intern　　　Jun 2023 - Jul 2023
Bharat Intern　　　*India*

- Learned about different python libraries and how to use juypter notebook.
- Developed a Translator Tool and Auto Correct Tool using these skills.

PROJECTS

Facial Recognition: Collaborated with a team to develop a program using haarcascade and CNN, facilitating efficient live face detection for employees with an accuracy rate of 96 percent. It is also capable of detecting multiple faces at the same time.

Personal Portfolio: Used HTML for creating forms,web page,buttons etc. Used CSS to make it colourful and added hovers for button. Used JS to make the links accessible and direct to the given links. (Try it here)

Translator Tool: Used Python programming language to develop the tool. Used google translator API for translating. In order to use this,you just have to type a phrase in the next step it will ask you to which language you want to choose,you just have to select the language code and it will translate the sentence or word.

ACHIEVEMENTS

- HackerRank Intermdeiate Programming Certificate.
- Code Clause Intern,Bharat Intern Certificate and DevTown,MLSA,GDSC Certificate.
- Organizing Committee of KIIT MUN Society
